# THIRTY8

## BUILT-IN FIREPLACE

The SÓLAS THIRTY8 Built-In Direct-Vent Gas Fireplace is a classic that offers many contemporary elements appealing to transitional design tastes and providing versatility for any aesthetic. A variety of burner media and liner panel options makes it ideal for consumers who want a current, yet traditionally shaped fireplace. The THIRTY8 is designed and manufactured in the USA giving customers the quality design, construction, and functionality that is synonymous with the SÓLAS brand.

*Feel at home with the THIRTY8.*

# THIRTY8 Features

## Customize Your Fireplace

The SÓLAS THIRTY8 can be customized to suit your installation and interior design needs. Customers can choose from a variety of burner, firebox panel and trim options allowing for virtually endless design possibilities.

## Optional Power Vent System

By adding the optional state-of-the-art Self-Calibrating Power Vent System, customers can now install a SÓLAS gas fireplace anywhere inside their home. The system offers maximum installation flexibility with vent runs of up to 130 feet possible. Venting can be power vented vertically, horizontally, or downward (up to 6 feet).

## Made With Pride In The USA

SÓLAS products are designed and manufactured at our facility in New Hampshire, USA.

## Installation Flexibility

THIRTY8 Built-In Fireplaces require minimal clearance to combustibles allowing for installation in the most challenging of locations. The unit can easily be converted to operate on either Natural or Propane Gas.

## Durable Construction

SÓLAS Fireplaces have been assembled in our New Hampshire factory for almost 20 years. They are manufactured to the tightest quality control standards, are fully welded, and built from heavier gauge steel than the industry standard.

## Innovative Design

The THIRTY8 has a large clean face design and is fitted with an unobtrusive integrated micro-mesh safety screen. The fireplace offers customers a variety of options along with the latest technology and impressive heat output efficiency.

## Operation

The SÓLAS THIRTY8 has an efficient electronics system that comes standard with a thermostatic remote control. The unit requires 120v power for blower operation, but has battery backup to run your fireplace in a power outage.

# Select From Two Burner Options

## CONTEMPORARY FIRE GLASS BURNER

Glass crystals on top of the contemporary burner cast light throughout the fireplace and surrounding areas. Black and clear mixed glass media is standard; colored glass media is optional.

## NEW ENGLAND MAPLE LOG SET WITH GLOWING EMBER BED

For customers looking for a more traditional look, SÓLAS offers a New England Maple Log Set with realistic glowing ember bed.

## Firebox Panel Kit Options

**SLATE STONE**

**PORCELAIN ENAMEL  
HIGH GLOSS**

**SATIN BLACK STEEL**

**RED BRICK**

**WHITE BRICK**

## Trim Options

**SATIN BLACK (STANDARD)**

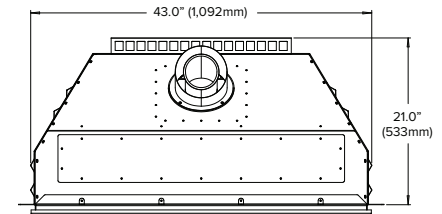

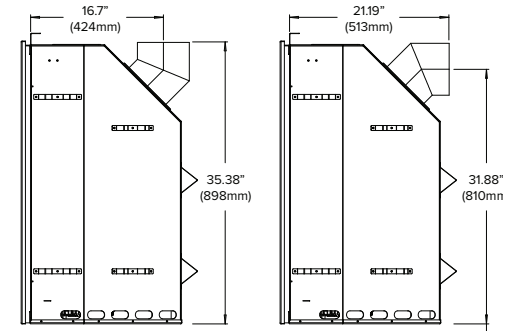

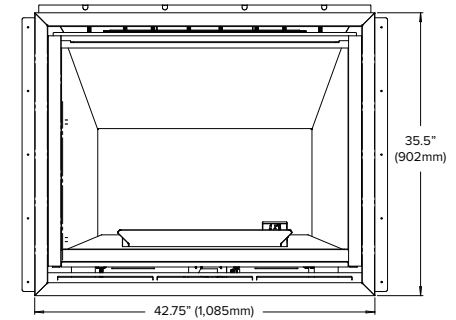

**STAINLESS STEEL (OPTIONAL)**
